GSPM Riccione asd

Is a sport and recreational association of the personnel of the Local Police of Riccione. Founded back in 1970 by the Chief Commander De Carlo, has always been committed to the sport, promoting the physical activity of the personnel and the participation of the athletes to the national ASPMI championship and to international events. The Association has an ongoing commitment supporting charity fund raisings, and recreational activities for agents and their families, to strengthen the interpersonal relationships and the cohesion.

Last but not least it has always organized sport events, both national and international, that have made a small group like the one of the Local Police of Riccione, to a benchmark in Italy and a well-known organization in Europe. The Friendship cup is the crowning glory of the Association, with impressive resources involved, and many volunteers, that aims to make the colleague from all Europe a little closer and make them aware of the sights of Riccione and of Italy.

The Local IPA Committee of Riccione

is part of the VI Emilia Romagna Regional Delegation and of the Italian Section. It is a pretty young committed, both due to its foundation date, 4 December 2003, and for the age of its member. In the last 2 years it has been the first Italian committee for the number of new members, with further growth perspective. The president Massimo Carannante underlines proudly: “A lot of friends, even from far away, keep on signing on with us, as they say – with you we feel at home – Dear Friend and IPA members, take part into this marvellous tournament that not by accident is called FRIENDSHIP CUP! The more the merrier!”

RICCIONE

Is known as “The Green Pearl of the Adriatic” thanks to one of the most beautiful stretches of the Adriatic coast and for the healthy vast sandy area surrounded by a charming background with huge green spaces. Fatherland of fun and joy of living, Riccione hosts the largest and most famous discotheques and dance halls of Europe. Outdoor events entertain visitors of every age. The whole city comes alive during festivals and concerts. Anyone who loves the quiet can stay in one of the many quaint beaches or take a walk along the city streets like the famous Viale Ceccarini, the main core of the town. The for entertainment are endless: Acqua-parks and thematic-parks, historical attractions and Food&Wine culture, hospitality and courtesy. For quantities of structures and flow of tourists, Riccione is one of the most important villages of the Riviera and it is among the first of the Adriatic Sea and Europe.

THE BEACH

The sandy beaches, bustling from the dawn to the sunset are definitely one of the main attractions that Riccione offers its guests. This is also the place for healthy morning walks on the beach to the characteristic port, and strolls on the beautiful promenade (a new construction that stretches over 3 km). The bathing resorts are equipped with all facilities to assure safety and relax. You can practice many sports such as: windsurfing, sailing, kitesurfing, beach volley and beach tennis, or participate in various beach games organized by professional animators. Who wants to make trips on the sea can rent the original and funny Pedalò boats available in over 150 bathing establishments.

FOOD

The Food has a secret: do simple things well, which in the end are the hardest to achieve. Nothing comes by chance, but everything comes from long habits and renewed passion. Fish is the king of Riccione kitchen: the culinary imagination of restaurateurs and chefs have created so many varieties of dishes, maybe cooking in a different way the same fish, that is practically impossible to enumerate all of them.

PIADINA

But we owe a special mention to the Piadina bread: simple mixture of water, salt and flour baked on clay, ideal for “noble” fish, for delicious appetizers and tasty roast. In Riccione, in summer it is always possible to dine outdoors, on a seafront terrace or in a garden enjoying the healthy air rich of iodine, the sunlight or the glow of the stars. It was the poet Giovanni Pascoli the one who created a tie between the word “piada” and Romagna, he event wrote a poem committed to what he called “the national bread of the people of Romagna”. Nowadays piadina is a PDO product sold in two varieties: one is “Piadina Romagnola” or “Piada Romagnola” Riminese Style. The first one is 15 to 25 cm wide and 4 to 8 mm thick, more rigid and crumbly. The second one is soft and flessible, 23 to 30 cm wide and thinner than 3 mm.

SHOPPING

The Shopping fan can satisfy all their desire as they walk in the central alleys with famous boutique and small creative shops run by local artisans of Riccione. Your walk past the shop windows will lead you to the heart of the town from Viale Dante and Viale Gramsci where you can also enjoy a ice-cream, a pizza or gourmet dinner.

Every street in Riccione participate to launch fashion or do the success of a new trend. it is no coincidence that Riccione is the venue of ITALY YOUNG DESIGNERS AWARD, a national fashion competition that allows the town and its guests to assist at fashion catwalks of the so-called “made in Italy”, to discover new talents and enjoy a preview of catwalks of famous fashion brands.

THE ALLEYS

And there are many corners streets and meeting points, recreational and shopping areas; starting from the central Via Dante, a real shopping centre, to the renowned Viale Verdi, Viale Trento Trieste and Viale Tasso. You can take a look to shop windows in Via Corridoni, Viale Gramsci and Viale San Martino, which all offer, boutiques, shops, bars, coffee-bar, restaurants and evening shows, animation and theme parties, surrounded by an original setting of urban structure. A short walk will let you discover “old town”, historical and cultural centre, heart of the city management, full of picturesque spots, boutiques and shops and venue of the weekly open-air market on Fridays.
