EXPLORING THE TRADITIONS

BETTER THEN EVER!

FEEL THE VIBE...

We provide you with an unparalleled experience right in the heart of the Danube, where the vibe, energy, and atmosphere will reach new heights.

Introducing a **FRESH EVENT CONCEPT** tailored to meet the expectations of every IPA member.

FEEL THE MUSIC...

The festival concept will feature a **diverse lineup of artists** performing on the main stage throughout the event. It will also provide an opportunity for IPA artists to showcase their talents alongside performers from Romania!

LAST EDITION IN CYPRUS

OF THE INTERNATIONAL FOLKLORE FESTIVAL

TWO SUCCESSFUL EDITIONS

The last edition of the festival was organized by our friends from **IPA Cyprus**. The event has focused on highlighting the traditions of each country present at the festival, from music to food and beverages.

These experiences provided IPA members with an opportunity to connect on a deeper level, as they sampled each other's traditional dishes and danced together, all fueled by the vibrant energy of the event.

HOW IT CONTINUES...

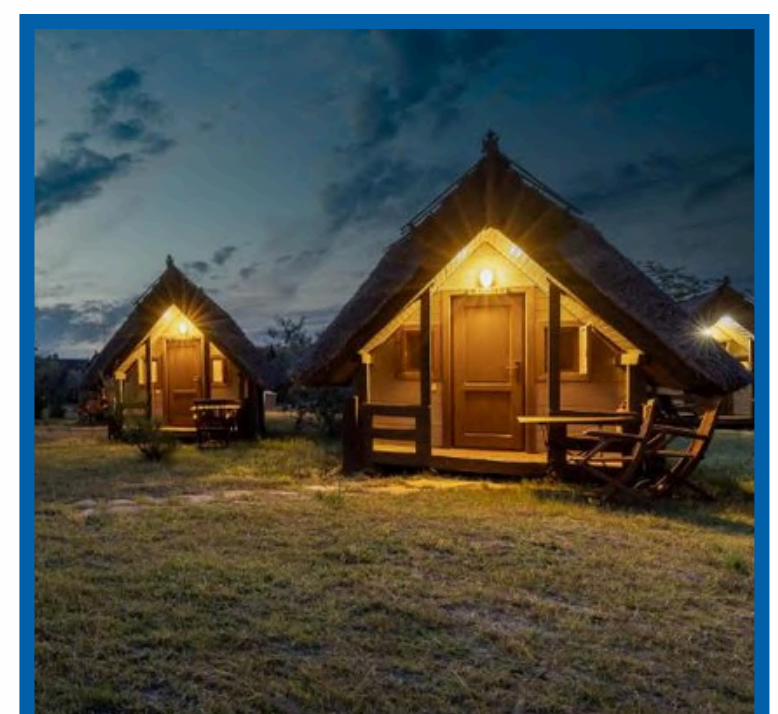

By incorporating the best practices from our colleagues at IPA Cyprus, we aim to elevate this format by engaging IPA members as artists. Our goal is to create a concept that meets the expectations of each member during the **IPA FESTIVAL!**

The Danube Delta is one of the largest and best-preserved deltas in Europe and is included in the UNESCO World Heritage list. It covers an area of about 5,165 square kilometers and represents an exceptionally important ecosystem, with a remarkable diversity of flora and fauna. The delta is located in the southeast of Romania, where the Danube River meets the Black Sea, forming a complex network of channels, lakes, and wetlands.

The Danube Delta provides a diverse array of activities for visitors, including boat tours through its intricate network of channels and lakes, birdwatching in this migratory bird sanctuary, fishing in its rich waters, hiking and cycling through its accessible trails, visiting traditional villages like Sfântu Gheorghe and Crișan to learn about local culture, and camping for an immersive natural experience.
